Causation and Causal Theories

Is the Causal Structure of the Physical Itself	
Something Physical?	Hilary Putnam 3
Causes, Causity, and Energy	Hector-Neri Castañeda 17
Minimizing Arbitrariness: Toward a Metaphysics of	
Infinitely Many Isolated Concrete Worlds.	Peter Unger 29
The Direction of Causation and the	
Direction of Time	David H. Sanford 53
Mackie and Shoemaker on Dispositions	
and Properties.	Alexander Rosenberg 77
Laws and Causal Relations	Michael Tooley 93
Causation and Induction.	Evan Fales 113
Hume Was Right, Almost; and Where He Wasn't,	
Kant Was	D. S. Shwayder 135
Conflicting Intuitions about Causality	Patrick Suppes 151
Probabilistic Causality Emancipated	John Dupré 169
Nomic Probability	John L. Pollock 177
Two Ideals of Explanation in Natural Science	Ernan McMullin 205
A Type of Non-Causal Explanation.	Peter Achinstein 221
EPR: Lessons for Metaphysics	Brian Skyrms 245
Epiphenomenal and Supervenient Causation.	Jaegwon Kim 257
Mind-Body Interaction and Supervenient Causation	Ernest Sosa 271
Mind and Anti-Mind: Why Thinking	
Has No Functional Definition	George Bealer 283
Parallelism, Interactionism, and Causation	Laird Addis 329
Action, Causality, and Teleological Explanation	Arthur Collins 345
Agency and Causation	Zeno Vendler 371
Thoughts and Their Ascription.	Michael Devitt 385

Establishing Causal Connections: Meta-Analysis and Psychotherapy	Edward Erwin	421
A Syntactically Motivated Theory of Conditionals.	William G. Lycan	437
How the Causal Theorist Follows a Rule	Penelope Maddy	457
Semantical Anthropology	Joseph Almog	479
Causality and the Paradox of Names	Michael McKinsey	491
Causal Theories of Knowledge	Fred Dretske and Berent Enç	517
The Concept of Knowledge	Colin McGinn	529
Reliability, Justification, and the Problem of Induction.	James Van Cleve	555
Perception, Causation, and Supervenience	Brian P. McLaughlin	569
Causation and Identity	Chris Swoyer	593
