Volume 34  
Philosophy of Mathematics

---

|  |    |
|--|----|
| Mathematical Models of Spacetime in Contemporary Physics<br>and Essential Issues of the Ontology of Spacetime<br><i>Maciej Gos</i> ..... | 1  |
| Semantic Realism: Why Mathematicians Mean What They Say<br><i>Elaine Landry</i> .....  | 6  |
| The Issue of Experiment in Mathematics<br><i>Anna Lemanska</i> .....   | 13 |
| The Problems of Understanding Mathematics<br><i>Jarosław Mrozek</i> .....  | 17 |
| The Neo-Kantians and the ‘Logician’ Definition of Number<br><i>Jarmo Pulkkinen</i> .....   | 24 |
| Reflexive Substantiation of an One-Way Ascendancy of Mathematics over Ethics<br><i>Krassimir D. Tarkalanov</i> .....                     | 30 |
| The Cartesian Doubt Experiment and Mathematics<br><i>Halil Turan</i> .....   | 35 |
| A Neo-Formalist Approach to Mathematical Truth<br><i>Alan Weir</i> .....   | 41 |
| Translation, Quotation and Truth<br><i>Roger Wertheimer</i> .....  | 48 |
