

# TABLE OF CONTENTS

This volume is organized into seven categories for your convenience in locating topically related papers and other materials from sessions at the conference:

- Business Ethics (including ideology, property rights, social justice, and values)
- Corporate Social Responsibility and Social Performance (including corporate citizenship, corporate philanthropy, social investing, social responsiveness, and stewardship)
- Environmental Management and Regulation (including environmental quality, pollution control, sustainability, and sustainable development)
- Governance Issues (including international governance regimes, legal standards, and comparative governance)
- Public Affairs, Public Policy, and Regulation (including business political activity and political contributions)
- Stakeholder Issues and Theory (including perceptions of reputation, instrumental stakeholder theory, and normative stakeholder theory)
- Teaching Issues, Research Issues, and Other Topics

Within each category, material is listed in alphabetical order by first author's last name. Please see the Author Index at the end of this volume for a complete list of authors.

Included again this year is the Keyword Index to help users find conference material related to their areas of interest. Each paper has been given a paper number to help users find the material by keyword.
