- IS THE ONLY REVIEW that has a really world-wide circulation.
- IS THE ONLY REVIEW of synthesis and unification of science, that deals in its articles with the newest and most fundamental problems of all branches of knowledge: scientific philosophy, history of science, mathematics, astronomy, geology, physics, chemistry, biological sciences, physiology, psychology, history of religions, anthropology, linguistics; articles that sometimes have constituted real and proper enquiries, such as those on the contribution given by the different nations to the advancement of science; on determinism; on the most fundamental physical and chemical questions, and particularly on relativity, physics of the atom and radiations; on vitalism. "Scientia" thus studies all the main problems interesting the intellectual circles of the whole world.
- IS THE ONLY REVIEW that among its contributors can boast of the most illustrious men of science in the whole world. "Scientia" publishes the articles in the language of their authors. Every number has a **Supplement** containing the complete French translation of the articles, which in the text are published in the Italian, German or Spanish language. (Write for a free copy of "Scientia", Asso (Como, Italy) sending 650 Ital. Lire (or six shillings) in stamps of your country).
