Volume 37
Philosophy of Science

Inductivism, Naturalism, and Metascientific Theories <i>David Boersema</i>	1
The Relational Nature of Species Concepts <i>José E. Burgos</i>	9
Critical Comments on Laudan's Theory of Scientific Aims <i>Armando Cintora</i>	17
¿Tiene Derecho a Existir la Filosofía de la Ciencia? <i>Manuel Comesaña</i>	25
Is Popularization of Science Possible? <i>Gustaaf C. Cornelis</i>	30
Ontological Levels and Symmetry Breaking <i>Gyorgy Darvas</i>	34
Thoughts on a Possible Rational Reconstruction of the Method of "Rational Reconstruction" <i>Gregg Alan Davia</i>	44
La Complejidad: Consideraciones Epistemológicas y Filosóficas <i>Elba del Carmen Riera</i>	51
Do Attractors Exist in Physical Space: The Truth Is Out There <i>Assen I. Dimitrov</i>	58
"Top-Down" or "Bottom-Up": Explaining Laws in Special Relativity <i>Francisco Flores</i>	61
The Not-so-trivial Truth of Methodological Individualism <i>Maarten Franssen</i>	69
The Relation-Functional Concept Of The Information <i>Vladimir G. Gamaonov</i>	77
The Limits of Science <i>Serghey Stoilov Gherdjikov</i>	80

Order Versus Chaos or the Ghost of Indeterminacy <i>Alexandru Giuculescu</i>	88
Bootstrapping and the Problem of Testing Quantitative Theoretical Hypotheses <i>David Gruenberg</i>	94
On Explanation: Aristotelean and Hempelean <i>David Gruender</i>	101
Algebra As Thought Experiment <i>Jagdish Hattiangadi</i>	106
Something More on What Explanation Explains <i>Norma Silvia Horenstein</i>	112
Technological “Paradigms:” Cognitive Traditions and Communities in Technological Change <i>Imre Hronszky</i>	119
Yin and Yang: the Nature of Scientific Explanation in a Culture <i>Heisook Kim</i>	125
Epistemological Positions in the Light of Truth Approximation <i>Theo A. F. Kuipers</i>	131
The Search for Scientific Truth Leads to God <i>Yury I. Kulakov</i>	139
Les “Théories de L’image” De Helmholtz et de Hertz et les Motifs de Carnap Dans L’ <i>aufbau</i> <i>Jean Leroux</i>	148
New Physical Properties <i>Manuel Liz</i>	155
Naturalized Philosophy of Science and Economic Method <i>Christoph Luetge</i>	165
Abduction and Hypothesis Withdrawal in Science <i>Lorenzo Magnani</i>	180
Cosmic Teleology and the Crisis of the Sciences <i>Anthony Mansueto</i>	188
Science, Development and Humanity <i>V. Mantatov, I. Lambaeva</i>	198

Philosophy of Science and the Theory of Natural Selection <i>John Losee</i>	203
First Revelation: When Theoretical Becomes Visible <i>Hernán Miguel</i>	213
Lakatos and MacIntyre on Incommensurability and the Rationality of Theory-change <i>Robert Miner</i>	220
A DNA Account of Propositions as Events: Dummett, Någårjuna, Aristotle <i>Khristos Nizamis</i>	227
L'erreur: pédagogue de l'humanité <i>Pierre Nzinzi</i>	243
Polemica imaginaria entre Popper y Kuhn sobre el progreso de la ciencia según un punto de vista evolucionista <i>Héctor A. Palma</i>	251
Epistemological Turn in European Scientific Rationality <i>Andrew N.Pavlenko</i>	257
The Heuristic Function of the Axiomatic Method <i>Volker Peckhaus</i>	263
The Two Cultures Problem <i>Sheldon Richmond</i>	266
La Vida en sus Origenes: Las Propiedades Basicas <i>Walter Riofrio Rios</i>	275
The Bayesian Theory of Confirmation, Idealizations and Approximations in Science <i>Erdinç Sayan</i>	281
Ohne Telos und Substanz: Grenzen des Naturwissenschaftlichen Kausalitätsverständnisses <i>Gregor Schiemann</i>	290
Philosophy of Contents: Form and Coulomb's Law <i>Leonid G. Kreidik and George P. Shpenkov</i>	299
Biological Teleology in Contemporary Science <i>Spas Spassov</i>	309

Werner Heisenberg: Reflexiones Sobre Pragmatismo y Positivismo <i>Ana Elisa Spielberg</i>	317
Particle and Astro-physics Challenge Kant's Phenomenolism <i>Lawrence H. Starkey</i>	323
The Monoamine Hypothesis, Placebos and Problems of Theory Construction in Psychology, Medicine, and Psychiatry <i>Paul C. L. Tang</i>	334
Quantum Holism as Consequence of the Relativistic Approach to the Problem of Quantum Theory Interpretation <i>I.Z.Tsekhmistro</i>	342
The Problem of Science in Heidegger's Thought <i>Daniel Videla</i>	348
Historical Types of Rationality <i>Vaclav Cernik, Jozef Vicenik, and Emil Visnovsky</i>	356
A New Vision of Science <i>Fritz Wallner</i>	363
When the Scientist turns Philosopher <i>Friedel Weinert</i>	368
The Rationality of Scientific Discovery: The Aspect of the Theory of Creation <i>Yang Yaokun and Cheng Liangdao</i>	274
